— SUMMARY

Full Stack Web Developer with a degree in Psychology dedicated to continue learning. Aiming to create a great user experience by creating great user-driven websites as well as using back-end servers to optimize use. Excited to use my time management, dedication and eye for detail to ensure that an excellent user experience.

— PROJECT

Denver through the Decades:

<https://github.com/mnevarez01/reactjs-mongo-app> ||
<https://denverdecades.herokuapp.com/>

A single page web application that can let you explore Denver, CO rich history. Using my back-end knowledge I was able to create the communication with our database and our front-end routes with our Reactjs components to have information render on the page.

— EXPERIENCE

CASE MANAGER ASSISTANT
Synergy Health Partners / 2017-2020

In this role I facilitated patient care through the Auto Collision Clinic. While still a fairly new position created at the company I streamlined process to enhance patient experience. One key role was facilitating the communication between the care plan and the patient to ensure that their experience was always the best.

- Was promoted from receptionist to Case Manager Assistant
- Organized patient care anything from basic visits to specialists
- Developed a training tool for Case Manager Assistant to better help those in position.

VISUAL MERCHANDISING LEAD
Arc'teryx / 2016 – 2017

In this position I created an attractive visual display for the outlet. Using innovative thinking to utilize the space that was given to enhance store appeal to all who come into the store while also intriguing those who pass to come into our shop.

- Implemented new visual guidelines to promote store quality
- Revamped the training tools for creating a better flow in sales with replenishment of the store.
- Organized outreach events to promote store visibility.
